

2 X 7" 16:9/4:3 TFT LCD MONITOR BANK

HD & SD Monitor with SDI, HDMI, Y:U:V & Composite Video connection

TLM-702HD

High Definition & Standard Definition 19-inch rackmountable bank of 7-inch LCD monitors, in a robust steel and aluminium construction.

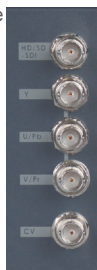

Each monitor provides dual colour LED tally light, with individual adjustments for contrast, brightness and colour & tint (NTSC mode only).

Audio peak meter & time-code can be superimposed when working with HD/SD-SDI or HDMI inputs.

Features

Flexible Video Input

Both monitors feature flexible connections for HD & SD-SDI, HDMI, YUV, and Composite Video.

Audio Motoring

Each monitor provides headphone connection for monitoring of embedded audio when used with SDI or HDMI connection. Audio peak meter can also be superimposed on to the screen.

Tally Light Indicator

Each monitor provides dual colour tally light, with standard 15-pin D-Sub connector for easy integration.

Blue Only

Blue Only feature, helps calibrate the monitors with each other, and any additional equipment in the production environment.

Colour Bar

Built in colour bar generator.

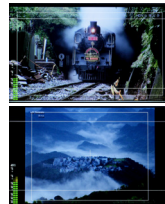

Together with the Blue Only feature it is easy to ensure the monitors are correctly adjusted.

Safe Area Indicator

Safe area guide lines for either 90% or 80% of a 4:3 or 16:9 signal can be superimposed on the monitor screen.

This enables you to verify the picture is within the safe area on domestic television sets

Time Code Indicator

When working with SDI, embedded time code can be superimposed (Similar to the audio peak meter)

Screen Adjustment

Individual adjustment for brightness, contrast, Colour and Tint (Tint NTSC mode only)
